

Tailored PD Learning Without Tears Workshops

Interactive – Our workshops are built around hands-on interaction with the real classroom materials we provide free to every participant.

Delivered by someone who understands your classroom and practice

– Our workshops are presented by fellow classroom teachers and occupational therapists who are not only topic experts, but have real world experience implementing in today’s classroom.

Sustained over time – Our workshops come with a free, one-year subscription to our Virtual PD Hub, providing you with ongoing, practical classroom support beyond the workshop.

Collaborative – Our workshops provide you with a unique opportunity to network with other teachers and OTs facing the same classroom challenges as you.

NEW! Virtual Workshops

We’re Here When You’re Ready

We are very pleased to launch our New Virtual Workshops and are now offering our complete Pre-K–5 workshops online to provide you with continuing education hours and product training right in your home.

Choose the time that works for you.

Our virtual workshops are offered at multiple convenient times throughout the day and week. Plus, they’re live, offering interactive learning.

All attendees receive a FREE one-year membership to our new online PD Hub with on-demand training and professional learning right at your fingertips all year. To make sure you get the most from this multisensory workshop, free materials will be sent to your location prior to the workshop so you can have a hands-on experience while virtually training.

Once the live workshops are completed in their entirety, you will receive AOTA approved certification hours.

Find the right PD option for you!

In-Person Workshops

Register and get hands-on training you can implement the next day.

On-Site Workshops

Bring professional development to your school or center.

NEW! Virtual PD Hub

You'll learn to:

- Implement effective, hands-on developmentally appropriate activities that incorporate all learning domains: Language & Literacy, Numbers & Math, Readiness & Writing, Oral Language, Science & Social Studies
- Use multisensory activities, music, and digital learning to teach writing readiness, number sense, literacy skills, vocabulary, scientific thinking, and important sensory motor and social-emotional skills in young learners
- Navigate digital teaching technology and hands-on materials to facilitate engaging lessons
- Participate in center-based breakouts to gain practical experience in using the Pre-K curriculum

K-5 Handwriting

Full Day | 6.5 Contact Hours

Gain the skills and knowledge to easily teach and remediate printing and cursive in classroom and 1:1 settings with students of all learning styles.

At the end of this full-day workshop, you will be able to:

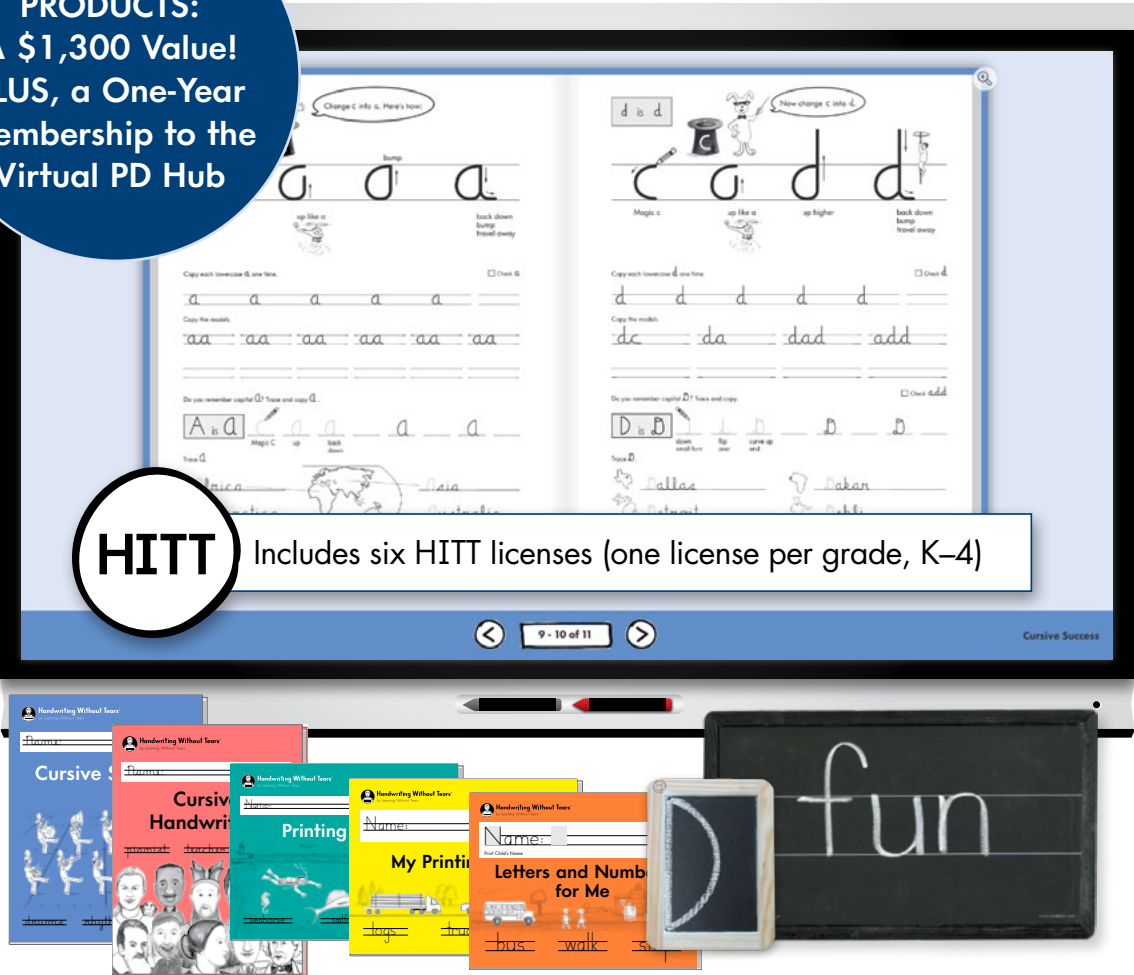

- Implement, teach, and remediate handwriting using effective, step-by-step lesson plans that incorporate active teaching, multisensory strategies, and differentiated instruction
- Promote independent writing skills beyond handwriting activity book instruction
- Use the Handwriting Without Tears® unique approach, stages of learning, and our two handwriting assessments (Screener of Handwriting Proficiency and The Print Tool®)
- Navigate the Handwriting Without Tears digital teaching technology and hands-on resources to facilitate engaging lessons

Handwriting Assessment

This workshop is required to complete your Level 1 Certification!

Full Day | 7.0 Contact Hours

Join us to learn strategies to assess and remediate handwriting as we help you evaluate a range of developmental levels of your students. This is an intermediate-level workshop.

At the end of the workshop, you will be able to:

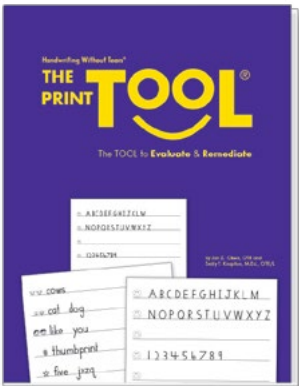

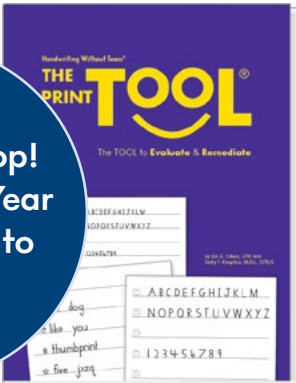

- Administer and score the Pre-K Assessments and the Screener of Handwriting Proficiency
- Describe the seven handwriting components essential to handwriting success
- Administer, score, and interpret The Print Tool® for 1:1 evaluation
- Write parent-friendly reports, set goals, and document progress for evidence-based practice
- Choose remediation materials and strategies based on evaluation results
- Understand different handwriting curricula, discover new handwriting resources, and use The Print Tool with various populations
- Identify the benefits and process of becoming a certified handwriting specialist
